PROFESSIONAL SUMMARY

High school science educator experienced in standards-aligned instruction, educational technology, and differentiated learning. Focused on creating clear, accessible, and engaging learning experiences that make complex content easier for students to understand. Currently pursuing an Ed.S. in Learning Technologies and Design at the University of Missouri to strengthen my instructional design skills and the effective use of technology to support student learning.

WORK EXPERIENCE

Science Teacher, Belleville West High School, Belleville, IL **Aug 2023 - Present**

- Design and deliver standards-aligned Biology instruction using labs, technology, and hands-on learning.
- Differentiate instruction and assessment for students with diverse learning needs, including IEPs.
- Support student achievement through collaboration, technology integration, and school-wide initiatives.

Social Studies Teacher, Grades 6-8, East St. Louis, IL **Aug 2021 - Jul 2023**

- Designed and delivered standards-aligned World History and World Geography instruction using differentiated strategies for a high-needs student population.
- Developed engaging lessons that increased student participation and supported improved academic performance.
- Built strong relationships with students and families to support attendance, engagement, and classroom success.
- Selected as Teacher of the Month for contributions to positive student outcomes.

Senior Airman, United States Air Force **Jan 1997 - Jan 2001**

- Provided emergency medical care in hospital and ambulance settings, including triage and patient stabilization.
- Served as lead EMT during emergency transports and high-stress response situations.
- Served four years of honorable service.
